# Ezeche Lanre

Software developer  
Nigeria

## Summary

I love coding and creativity.

I solve problems in creative and innovative ways. I'm currently a 300L computer science student at the prestigious Olabisi Onabanjo University, Ogun State, Nigeria. I have learned the importance of applying classical strategies to modern-day projects.

Participated in small projects involving software development (Web and Desktop), system analysis and design, design concepts and procedures with a team.

I play the Piano and my love for music led me to develop a music application In C# which I called "Click Music".

SKILLS: PHP, Javascript, Bootstrap, Wordpress, HTML, CSS, Python, C#, Java, Git, Photoshop, Corel draw.  
INTEREST: AI/Machine Learning, Cyber Security.

---

## Experience
