Ezeche Lanre

Software developer
Nigeria

Summary

I love coding and creativity.
I solve problems in creative and innovative ways. I'm currently a
300L computer science student at the prestigious Olabisi Onabanjo
University, Ogun State, Nigeria. I have learned the importance of
applying classical strategies to modern-day projects.

Participated in small projects involving software development (Web
and Desktop), system analysis and design, design concepts and
procedures with a team.

I play the Piano and my love for music led me to develop a music
application In C# which I called "Click Music".

SKILLS: PHP, Javascript, Bootstrap, Wordpress, HTML, CSS,
Python, C#, Java, Git, Photoshop, Corel draw.
INTEREST: AI/Machine Learning, Cyber Security.
